

7th Annual

BULL SALE

THURSDAY • JANUARY 18 • 2024

1:00 PM CT • BYARS, OKLAHOMA

Welcome

I would like to welcome you to our 7th Annual Bull Sale at Linz Heritage Angus. We have been loving our move to Byars, Oklahoma. We have poured countless hours into not only the ranch but the cattle as well. The team has continued to put everything they have into getting the cattle prepared and managed right for the sale. The horizon certainly looks like there is promise for feeder cattle, but let us not forget the importance of selecting the right bull to mate with your herd to capture all the added performance and premium that you can. We look forward to continuing to work with the many loyal customers that we have gained over these past years as well as with the new customers that continue to show interest in our program.

We could not be prouder of this offering. With our customers in mind, we continually offer the same great quality that we have built our program around, cattle that grow and last in any environment. That is why we take such care in the development of our bulls we want to be sure that they will be ready to go to

work for you! Feet and legs are always our priority along with the visual expression of that animal. This year you will see a lot of familiar Sires like Exemplify, Magnitude, and No Doubt 9538. These cattle have proved themselves time and time again by not only holding up to tough running condition but making cattle that can be retained into the cow herd or when harvested, grow fast and grade high. You will also notice some new sires that we are excited for like Jordan, Heisman, and Congress. We like what we see out of these young sires and expect them to put a lot of great cattle on the ground the next couple of years.

We cannot wait for you to join us in Byars. Where the bulls, people and hospitality are second to none!

Heifer Bulls!

A WORD ABOUT HEIFER BULLS

CED EPD is to be used when mating bulls to virgin heifers. Generally an 8 or higher CED bull will be safe for heifers. All bulls in this sale should not present any birth weight issues on cows. In fact, more calves are born too light as opposed to too heavy in recent years.

BEAL BREAKTHROUGH Sire of Lots 79-81

#14 Bull in the breed for registrations in 2023.
 Incredible ability to inject carcass!

A set of paternal brothers with off the chart numbers!

\$MATERNAL vs \$BEEF vs \$COMBINATION

Dollar indexes are made to make quick and broad selection decisions. \$M tries to find more profitable maternal genetics. \$B tries to find the more profitable terminal genetics. \$C tries to find the most profitable genetics of both. While we use these, they are not always the best way to dissect genetics as certain traits can influence the indexes more than others. Use the EPDs of the traits your wanting to improve before the selection of an index only.
